Education

2018
- **Higher Secondary, Leo XIII H.S.S, Alappuzha**

2021
- **St.Micheal's College Cherthala/Kerala University, Bsc,chemistry (Incomplete - One paper remaining), Anticipated Graduation: 2021**

David Yesudas
Flutter Developer

Dedicated and self-motivated Flutter Developer with a passion for creating native applications. Currently employed at Sofdia Technologies contributing to the development of innovative solutions. Adept at Leveraging Flutter's capabilities to build cross-platform applications seamlessly. Eager to apply acquired skills and knowledge to drive impactful projects and enhance user experiences.

Experience (1 Year)

2023 Oct to 2024 March
Motocross India Pvt Ltd,
Flutter Developer

2024 April Onwards
Sofidia Technologies
Flutter Developer

Developed and maintained mobile applications using Flutter framework, Collaborated with cross functional teams to design and implement new features, Utilized Dart programming language to write efficient and clean code, Troubleshot and resolved technical issues and bugs in a timely manner, Implemented UI/UX designs provided by the design team, Worked with RESTful APIs to integrate data into the applications, Stayed updated with industry trends and advancements in Flutter development

Projects

Move On Wheels_Customer play store   app store
- Developed a user-friendly bike rental application enabling users to rent bikes and explore the city with ease. The app features secure payment integration, real-time bike availability. Enhanced the user experience by implementing an intuitive interface for browsing, renting, and managing bike rentals.

Move On Wheels_Partner play store
- Designed and developed a bike rental application specifically for office staff to manage bike bookings for users. The application allows staff to issue, cancel, and extend bike bookings, ensuring efficient management of bike resources within the office. The system streamlines the booking process and improves overall resource allocation.

Expertise

- Flutter
- Dart
- Git
- Bloc
- Provider
- Clean Architecture
- MVC Architecture

Language

- **English**
- **malayalam**
- **Hindi**

Clima App

- Developed a comprehensive weather application that provides real-time weather updates, forecasts, and alerts. The app features a clean and intuitive interface, allowing users to easily access current conditions, Integrated with geolocation services to provide personalized weather data based on the user's location.

Bit Coin Value App

- Created a lightweight application that displays real-time Bitcoin values across different countries. The app fetches and updates exchange rates, allowing users to monitor Bitcoin prices in various currencies. Designed with a simple and responsive interface, making it easy for users to compare values across multiple regions.

NetFlix Clone

- Developed a Netflix clone application that showcases details of movies and TV shows. The app features a user-friendly interface with categorized content, search functionality

BMI Calculator

- Developed a simple and efficient Body Mass Index (BMI) calculator application. The app allows users to input their height and weight to calculate their BMI, providing immediate feedback on their health status. Designed with a clean interface, making it easy for users to understand their results and track their health.

Karshika CRM (currently working)

- Developed a simple and efficient Body Mass Index (BMI) calculator application. The app allows users to input their height and weight to calculate their BMI, providing immediate feedback on their health status. Designed with a clean interface, making it easy for users to understand their results and track their health.

Karshika   (currently working)   play store

- Developed an application for executives to manage client details and requirements. The app allows executives to efficiently track and update client information and project needs. Once the client completes the payment outside the application, the executive can close the deal within the app, streamlining the client management process.
